Contents

Volume 37, Number 1, February 1997

Special Review

1 *Matthias Brunke and Tom Gonser:* The ecological significance of exchange processes between rivers and groundwater

35 *Harriet L. J. Jones* A classification of mixotrophic protists based on their behaviour

45 *Lars-Anders Hansson and Lars J. Tranvik:* Algal species composition and phosphorus recycling at contrasting grazing pressure: an experimental study in sub-Antarctic lakes with two trophic levels

55 *Gaye E. Oberlin and Dean W. Blinn:* The affect of temperature on the metabolism and behaviour of an endemic amihipod, *Hyalella montezuma*, from Montezuma Well, Arizona, U.S.A.

61 *Christoph D. Matthaei, Urs Uehlinger and Andreas Frutiger:* Response of benthic invertebrates to natural versus experimental disturbances in a Swiss prealpine river

79 *Peter Koetsier III, J. Vaun McArthur and Laura G. Leff:* Spatial and temporal response of stream bacteria to sources of dissolved organic carbon in a blackwater stream system

91 *Gary J. Scrimgerour, Kevin J. Cash and Joseph M. Culp:* Size-dependent flight initition by a lotic mayfly in response to a predatory fish

99 Horacio E. Zagarese, Craig E. Williamson, Timothy L. Vail, Olaf Olsen and Claudia Queimaliños: Long-term exposure of *Boeckella gibbosa* (Copepoda, Calanoida) to *in situ* levels of solar UVB radiation

Special Applied Issue Section: Advances in Catchment-Scale Analyses of Aquatic Ecosystem

107 *J. David Allan and Lucinda B. Johnson:* Catchment-scale analysis of aquatic ecosystems

113 *Lucinda B. Johnson and Stuart H. Gage:* Landscape approaches to the analyses of aquatic ecosystems

133 *Michael J. Wiley, Steven L. Kohler and Paul W. Seelbach:* Reconciling landscape and local views of aquatic communities: lessons from Michigan trout streams

149 *J. David Allan, Donna L. Erickson and John Fay:* The influence of catchment land use on stream integrity across multiple spatical scales

163 *Sherri L. Johnson and Alan P. Covich:* Scales of observation of riparian forests and distribution of suspended detritus in a prairie river

177 *Colin R. Townsend, Chris J. Arbuckle, Todd A. Crowl and Mike R. Scarsbrook:* The relationship between land use and physiochemistry, food resources and macroinvertebrate communities in tributaries of the Taieri River, New Zealand: a hierarchically scaled approach

193 *Lucinda B. Johnson, Carl Richards, George E. Host and John W. Arthur:* Landscape influences on water chemistry in Midwestern stream ecosystems

209 *Timothy K. Kratz, Katherine E. Webster, Carl J. Bowser, John J. Magnuson and Barbara J. Benson:* The influence of landscape position on lakes in northern Wisconsin

219 *Carl Richards, Roger J. Haro, Lucinda B. Johnson and George E. Host:* Catchment and reach-scale properties as indicators of macroinvertebrate species traits

© 1997 Blackwell Science Ltd

231 *Brian D. Richter, Jeffery V. Baumgartner, Robert Wigington and David P. Braun:* How much water does a river need?

251 **Book Reviews**

Volume 37, Number 2, April 1997

257 *M.-J. Dole-Olivier, P. Marmonier and J.-L. Beffy:* Response of invertebrates to lotic disturbance: is the hyporheic zone a patchy refugium

277 *P. Silver Botts:* Spatial pattern, patchy dynamics and successional change: chironomid assemblages in a Lake Erie coastal wetland

287 *Janet E. Harker:* The role of parthengenesis in the biology of two species of mayfly (Ephemeroptera)

299 *Jaana Hietala, Camilla Laurén-Määttä and Mari Walls:* Sensitivity of *Daphnia* to toxic cyanobacteria: effects of genotype and temperature

307 *Joseph Shapiro:* The role of carbon dioxide in the initiation and maintenance of blue-green dominance in lakes

325 *David H. Kesler and John A. Downing:* Internal shell annuli yield inaccurate growth estimates in the freshwater mussels *Elliptio complanata* and *Lampsilis radiata*

333 *Ulrike Nolte, Maria José de Oliveira and Elisabeth Stur:* Seasonal, discharge-driven patterns of mayfly assemblages in an intermittent Neotropical stream

345 *Jean-Pier Amyot and John A. Downing:* Seasonal variation in vertical and horizontal movement of the freshwater bivalve *Elliptio complanata* (Mollusca: Unionidae)

355 *Marit Mjelde and Bjørn A. Faafeng: Ceratophyllum demersum* hampers phytoplankton development in some small Norwegian lakes over a wide range of phosphorus concentrations and geographical latitude

367 *Colin R. Townsend, Sylvain Dolédec and Mike R. Scarsbrook:* Species traits in relation to temporal and spatial heterogeneity in streams: a test of habitat templet theory

389 *Tineke Reede:* Effects of neonate size and food concentration on the life history response of a clone of the hybrid *Daphnia hyalina* × *galeata* to fish kairomones

397 *Clay L. Pierce and Bruce D. Hinrichs:* Response of littoral invertebrates to reduction of fish density: simultaneous experiments in ponds with different fish assemblages

409 *Norman D. Yan and Trevor W. Pawson:* Changes in the crustacean zooplankton community of Harp Lake, Canada, following invasion by *Bythotrephes cederstrœmir*

427 *Sarah Kupferberg:* Facilitation of periphyton production by tadpole grazing: functional differences between species

441 *Bjørn Rørslett, Ian Hawes and Anne-Maree Schwarz:* Features of the underwater light climate just below the surface in some New Zealand inland waters

Opinion

455 *Timothy Brian Mihluc:* The functional trophic role of lotic primary consumers: generalist versus specialist strategies

Applied Issues/Opinion

463 *Bernhard Statzner, Hervé Capra, Lambertus W. G. Higler and A. Louis Roux:* Focusing environmental management budgets on non-linear system responses: potential for significant improvements to freshwater ecosystems

Applied Issues

473 *P. S. Cranston, P. D. Cooper, R. A. Hardwick, C. L. Humphrey and P. L. Dostine:* Tropical acid streams—the chironomid (Diptera) response in northern Australia

485 *Peter M. Kiffney, Edward E. Little and William H. Clements:* Influence of ultraviolet-B radiation on the drift response of stream invertebrates

493 *Frédéric Grandjean, Catherine Souty-Grosset, Roland Raimond and David M. Holdich:* Geographical variation of mitochondrial DNA between populations of the white-clawed crayfish *Austropotamobius pallipes*

503 **Book reviews**

506 **Announcement**

Volume 37, Number 3, June 1997

507 *V. Faundez, G. Blanco, E. Vázquez and J. A. Sánchez:* Allozyme variability in brown trout *Salmo tratta* in Chile

515 *Kevin L. Kirk:* Egg size, offspring quality and food level in planktonic rotifers

523 *Anne-Mette Hansen, Frede Østergaard and Henning Skovgaard Jensen:* Seasonal pattern in nutrient limitation and grazing control of the phytoplankton community in a non-stratified lake

535 *Jordan S. Rosenfeld:* The influence of upstream predation on the expression of fish effects in downstream patches

545 *Mette Hein:* Inorganic carbon limitation of photosynthesis in lake phytoplankton

553 *Anne Lise Middelboe and Stiig Markager:* Depth limits and minimum light requirements of freshwater macrophytes

569 *Julie H. Winterbottom, Stuart E. Orton, Alan G. Hildrew and Jill Lancaster:* Field experiments on flow refugia in streams

581 *Jack W. Grubaugh, J. Bruce Wallace and Elizabeth S. Houston:* Production of benthic macroinverterbrate communities along a southern Appalachian river coninuum

597 *C. E. Gibson and J. Guillot:* Sedimentation in a large lake: the importance of fluctuations in water level

605 *Kenneth Irvine:* Food selectivity and diel vertical distribution of *Chaorbus edulis* (Diptera, Chaoboridae) in Lake Malawi

621 *Lisa J. Evans and Richard H. Norris:* Prediction of benthic macroinvertebrate composition using microhabitat characteristics derived from stereo photography

635 *Camilla Laurén-Määttä, Jaana Hietala and Mari Walls:* Responses of *Daphnia pulex* populations to toxic cyanobacteria

649 *Joanna Pijanowska and Andrzej Kowalczewski:* Predators can induce swarming behaviour and locomotory responses in *Daphnia*

655 *Cécile Claret, Pierre Marmonier, Jean-Michel Boissier, Dominique Fontvieille and Paul Blanc:* Nutrient transfer between parafluvial interstital water and river water: influence of gravel bar heterogeneity

Applied Issues

671 *Richard St. J. Thorne and W. Peter Williams:* The response of benthic macroinvertebrates to pollution in developing countries: a multimeric system of bioassessment

687 *Göran Englund, Björn Malmqvist and Yixin Zhang:* Using predictive models to estimate effects of flow regulations on net-spinning caddis larvae in North Swedish rivers

699 *Paul L. Angermeier and Matthew R. Winston:* Assessing conservation value of stream communities: a comparison of approaches based on centres of density and species richness

711 **Index to volume 37**
